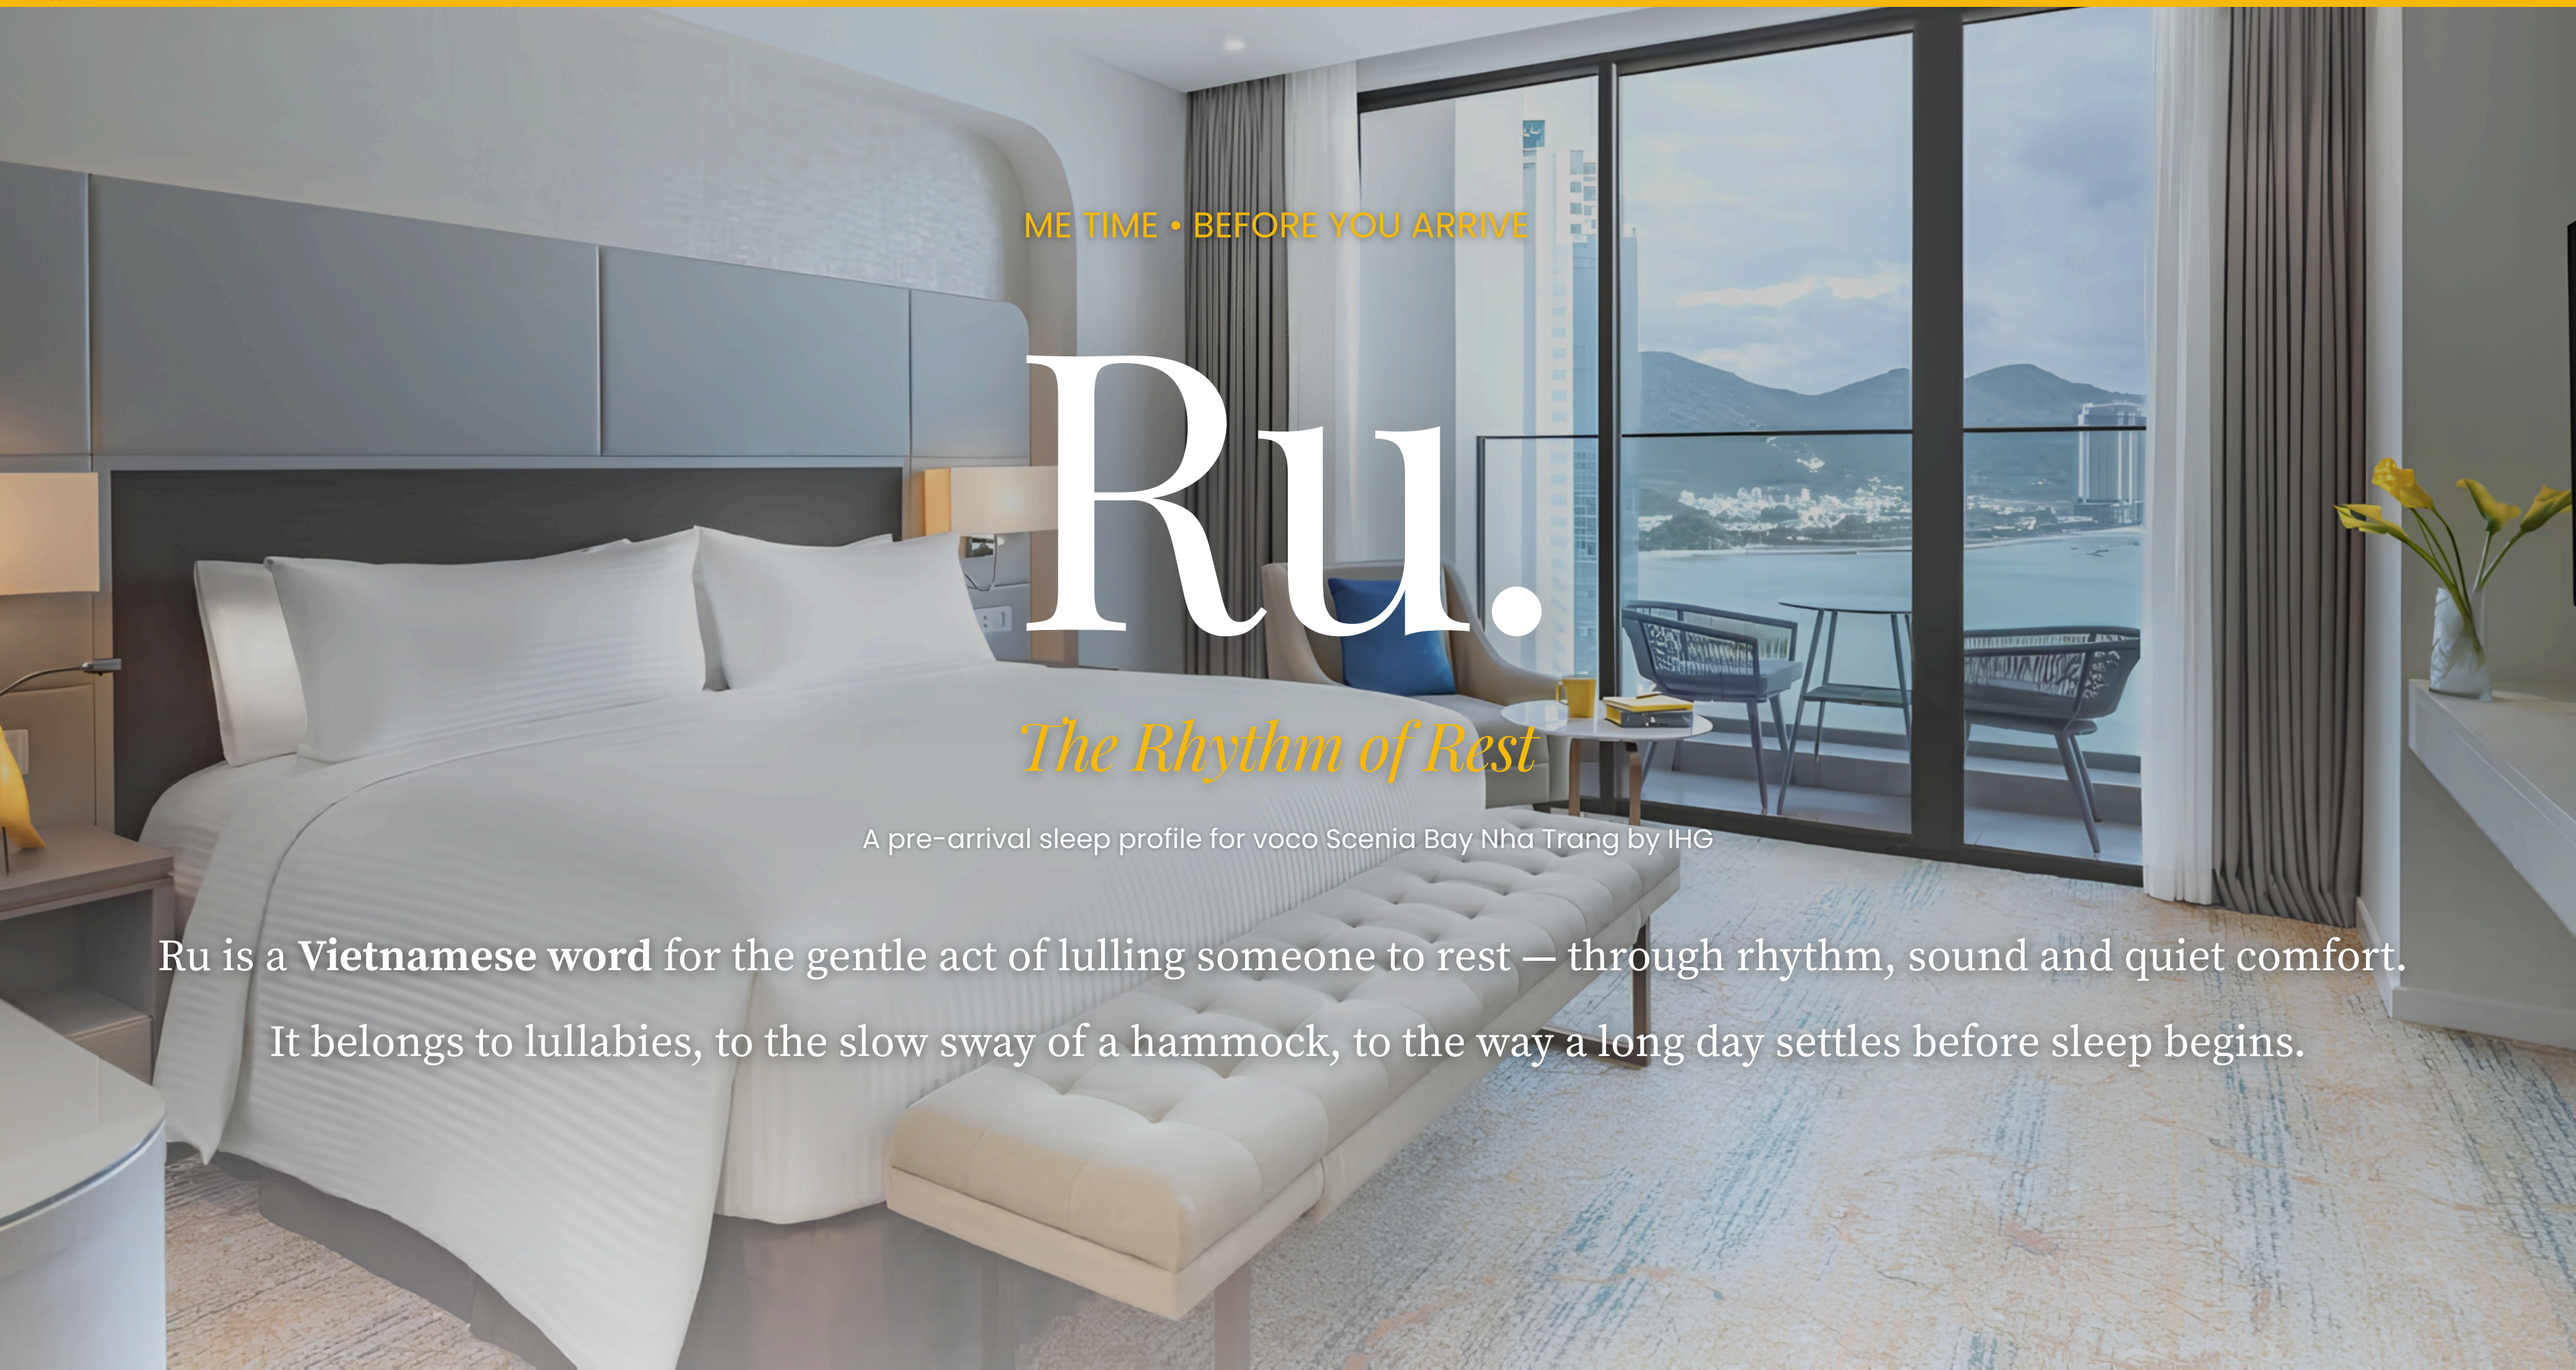
Introduction



ME TIME • BEFORE YOU ARRIVE

Ru.

The Rhythm of Rest

A pre-arrival sleep profile for voco Scenia Bay Nha Trang by IHG

Ru is a **Vietnamese word** for the gentle act of lulling someone to rest — through rhythm, sound and quiet comfort.

It belongs to lullabies, to the slow sway of a hammock, to the way a long day settles before sleep begins.

02

Company & Opportunity

Coffee Grounds
The Energy of Morning, The Comfort of Evening
Vietnam is the world's second-largest coffee exporter, and for us, coffee is more than just a morning ritual – it's woven into the fabric of our everyday lives.
With an estimated 1.6 million tonnes of coffee grounds discarded each year in Vietnam, we saw an opportunity to transform this everyday waste into something extraordinary.
Our coffee-ground textile is made by combining discarded coffee grounds with recycled PET fibers.
Dries up to 200% faster than cotton
Cooling effect for thermal comfort
Odor control with microporous structure
UV protection
Experience the story of morning energy and evening comfort with our coffee-ground pillowcase, a tangible expression of our commitment to sustainability and circular economy.
03
Oyster Shells
The Story of the Sea
Nha Trang is renowned for its stunning beaches and abundant marine life. Aquaculture and shellfish farming are integral parts of Khanh Hoa's coastal identity.
With tens of thousands of tonnes of discarded oyster shells each year in Vietnam, we're proud to transform this coastal by-product into a unique and comfortable textile.
Soft, breathable and quick-drying
Antibacterial & odor-resistant
