WRITTEN SUBMISSION

MARKETING CAMPAIGN

Campaign period: January–March 2026 (3 months)

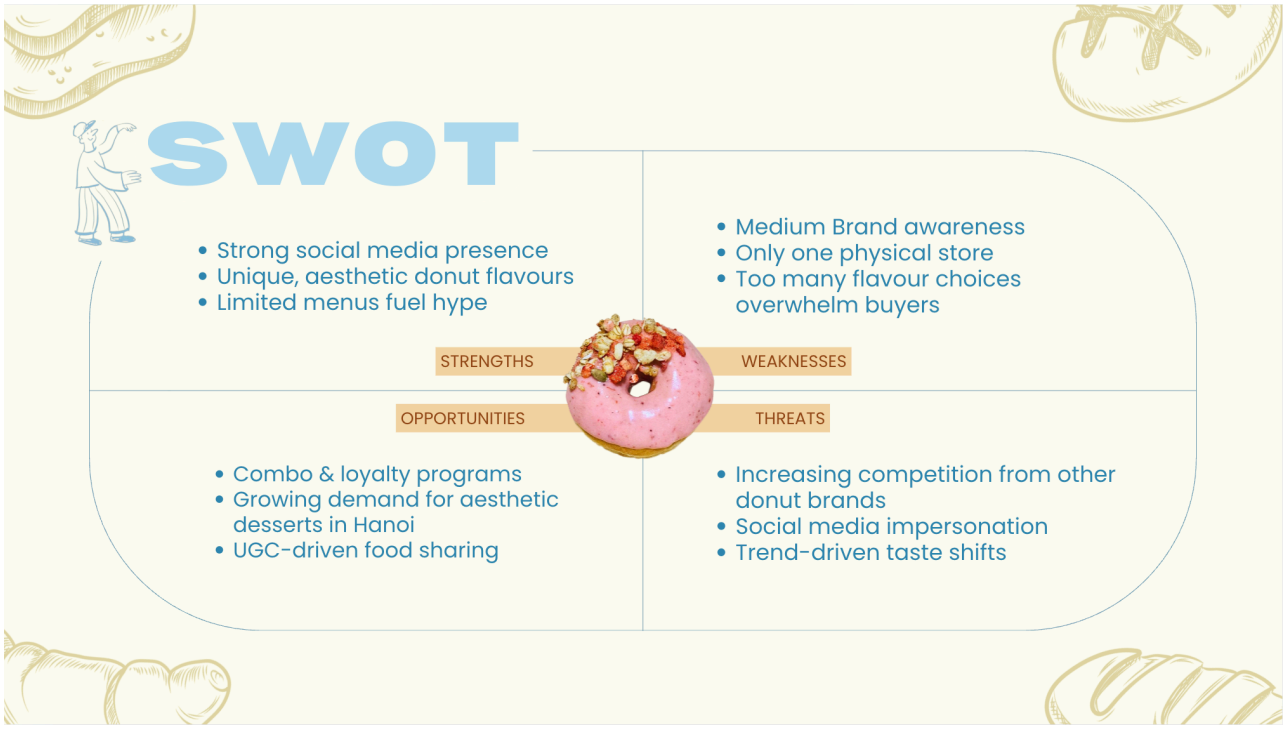

I. Overview

▪ About the Local Brand:

Lịm Donuts is a Vietnamese donut brand founded in 2021, currently operating one physical outlet in Hanoi. Positioned within Vietnam's rapidly growing bakery and café market, Lịm targets Gen Z and young professionals seeking aesthetic, high-quality desserts influenced by social media trends and gifting culture (Statista 2024; Lịm Donuts Instagram 2025).

▪ About the Campaign - *Donut Overthink It*

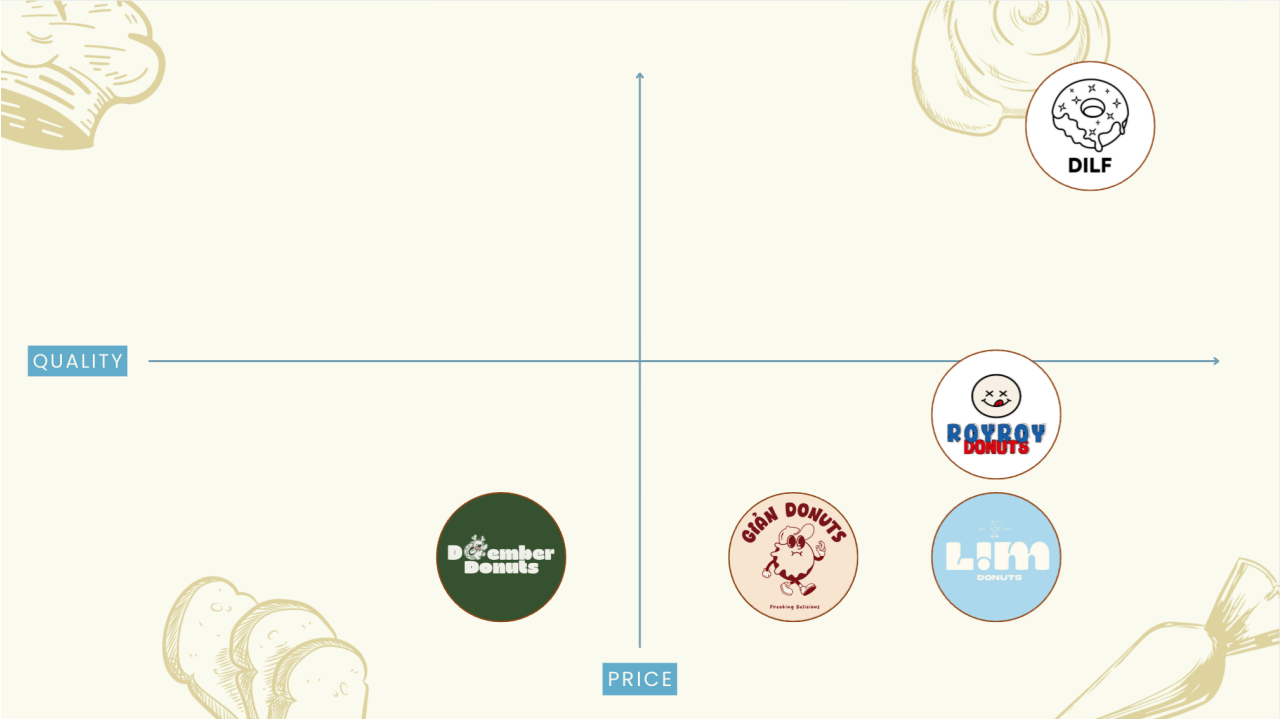

"Donut Overthink It" is a playful wordplay that reflects how Lịm Donuts simplifies the donut decision-making process for customers who may feel overwhelmed by choice or unfamiliar with the brand. The idea positions Lịm Donuts as an easy, fun, and approachable dessert choice—encouraging customers to enjoy without hesitation.

(Lịm Donuts Instagram 2025; Vietnam FNB 2025)

This campaign leverages Lịm Donuts' USP, including its strong social media presence, visually driven and frequently refreshed menu, and resonance with Gen Z dessert culture (Vietnam FNB 2025). Addressing moderate brand awareness, limited physical accessibility, and recent social

media impersonation issues, *Donut Overthink It* adopts a focused, content-led approach to simplify choice, build trust, and encourage habitual purchase. Operating within Vietnam's growing dessert market, which values novelty and shareable food experiences, the campaign aims to strengthen brand recall and position Lịm Donuts as an effortless, everyday donut choice among young urban consumers (Vietnam FNB 2025).

Furthermore, operating within Hanoi's competitive donut market, Lịm Donuts distinguishes itself through a balance of affordability, aesthetic appeal, and strong digital presence. While competitors tend to compete primarily on price or perceived quality, *Donut Overthink It* positions Lịm Donuts as an approachable yet creative brand that prioritises visual identity, novelty, and everyday indulgence (Google 2025; Threads 2025). This positioning allows the brand to remain distinctive while staying accessible to Gen Z consumers.

Ultimately, *Donut Overthink It* is a playful yet strategic push to make Lịm Donuts an everyday craving—turning curiosity into habit, feel-good choice in everyday moments.

II. Objectives - SMART GOALS

1. Enhance Brand Awareness

To strengthen Lịm Donuts' presence among Gen Z and young Millennials in Hanoi through consistent, visually driven content and recognisable weekly concepts (Lịm Donuts Instagram 2025).

KPIs:

- 1,000+ pop-up visitors
- Increase TikTok followers from **39.2k to 44.2k (+5,000)** within **3 months (Jan–Mar 2026)**
- Achieve an average engagement rate increase of **+20%** across TikTok and Instagram
- Reach at least **3 viral or semi-viral posts** (250k-300k views) during the campaign period

2. Sales Conversion & Habit Formation

By simplifying choice and encouraging habitual purchasing, the campaign seeks to convert online engagement into in-store sales.

KPIs:

- Increase average monthly sales by **30% (~+4,000 donuts/month)** by **March 2026**
- Sell at least **70% of daily *"Donut Overthink It"* combo sets**
- Register **200+ loyalty members** by the end of February 2026.

3. Trust & Engagement

Strengthen customer confidence and reduce brand confusion through fast-response communication and consistent official messaging.

KPIs:

- Increase positive reviews and saves/comments by **30%** by **March 2026** (Google ratings, Facebook, TikTok, Instagram)
- Maintain **fast-response, friendly IG DM engagement** as a trust signal
- Reduce customer confusion caused by impersonation through consistent official messaging

III. Target Audience

1. The Trend-Driven Treat Seekers

This group consists of Gen Z and young Millennials aged 15–30, primarily students and early-career professionals living in Hanoi. They are highly influenced by social media trends, particularly on TikTok and Instagram, and are drawn to aesthetic, good-looking desserts (CNP 2023). These consumers enjoy discovering new flavours, frequently purchase snacks and desserts 2–4 times per month, and often share their food experiences online. Their responsiveness to visual content and seasonal food trends makes them highly engaged with Lịm Donuts' digital campaigns.

2. The Overthinking-Eaters

Spanning Gen Z to young middle-aged consumers, the Overthinking Eaters represent dessert lovers who experience decision fatigue when faced with extensive or visually overwhelming menus. While eager to try new flavours, they often struggle to choose and seek reassurance

through recommendations, curated combos, and playful guidance. This group values convenience, humour, and simplicity in the decision-making process and is strongly influenced by social media recommendations and online trends, as 53% of TikTok users have visited a restaurant or ordered food after seeing it on TikTok (BBC 2024). By reducing choice complexity and reframing selection as a fun, low-pressure experience, Lịm Donuts can build trust, encourage repeat purchases, and motivate this segment to explore new flavours without overthinking.

IV. Promotional Mix Method

1. Public Relations (Event-Based Promotion)

To kick off the *Donut Overthink It* campaign, Lịm Donuts will activate a **small-scale pop-up booth** outside its Tô Hiệu store from Mid-January to Mid-February 2026, allowing the brand to maximise foot traffic while minimising operational costs.

Positioned as an experiential touchpoint, the pop-up will feature interactive elements, encouraging customer interaction through light-hearted mini-games and flavour suggestion banner. By prompting customers to actively contribute ideas, the installation positions Lịm Donuts as a responsive and community-driven brand image under its "Khách Nói, Lịm Care" philosophy.

The pop-up includes check-in areas and QR codes that encourage visitors to follow Lịm Donuts' social media accounts and share their experiences online before participating minigames. This integration of offline interaction and digital engagement helps increase brand visibility, generate UGC, and extend campaign reach organically.

2. Sales Promotion

Sales promotion plays a central role in the *Donut Overthink It* campaign by encouraging trial, simplifying purchase decisions, and increasing repeat visits. The campaign introduces **Today's Special Combos**, where each day of the week features a fixed set of three donuts that rotates daily (e.g. *Monday Mood Combo*, *Sweet Tooth Tuesday)*. This strategy is particularly effective for first-time customers who may feel overwhelmed by too many flavour choices, as well as time-sensitive customers seeking quick decisions.

In addition, Lịm Donuts will implement a **tiered loyalty programme** *(Bronze, Silver, and Gold)* based on cumulative donut purchases. Each tier offers increasing benefits, such as percentage discounts and complimentary beverages, incentivising customers to return more frequently and

"eat more to level up." Together, these sales promotion tactics aim to build habitual purchasing behaviour, increase average purchase frequency, and convert casual buyers into loyal customers. Additionally, limited-time promotions tied to holidays and cultural events are implemented to stimulate seasonal sales.

3. Advertising

To amplify offline activations, the campaign adopts a **digitally led advertising** approach on TikTok and Instagram. Short-form content communicates the *Donut Overthink It* concept, daily combos, and loyalty mechanics, reflecting real in-store experiences to drive visits.

Advertising follows a light phased structure, supported by selected micro-influencers sharing authentic trial content. Playful and aesthetic **Valentine's Day Instagram Story templates** made by Lịm Donuts and QR-linked leaflets at the pop-up booth encourage UGC and ensure consistency across online and offline touchpoints.

V. Timeline & Budget

Lịm Donuts - MKT Planning

No.	Methods	Activities	Unit	QTY	Price/unit (VND)	Total (VND)
1	**Public Relations**	Pop-up activation (outside Tô Hiệu store – 1 month)	Booth	1	VND 10,000,000	VND 10,000,000
